

PRIME AREAS

PERSONAL, SOCIAL, EMOTIONAL DEVELOPMENT

We have focused this week on turn taking, sharing and we've spoken about kind hands and how to use kind words to our friends.

COMMUNICATION & LANGUAGE

We are focusing on listening and following instructions and understanding why this is important to keep us safe at Pre School.

PHYSICAL DEVELOPMENT

We have been encouraged to change from our wellies to our shoes independently and to be able to remove and put on our own coats.

THIS WEEK...

We have enjoyed the sunshine in the garden, playing in the mud kitchen. A pumpkin birdfeeder now hangs from a tree which we made at Forest School along with hot chocolate! We have enjoyed making diva lanterns with salt dough and creating firework paintings. Messy play really was messy making our own gloop! We have flown to Space, ran away from aliens and apparently even gone under sea in our submarine. In our afternoon sessions we made rockets and flew them in the garden to see whose could reach past number 5! Our role play was 'doctors' and in the home corner we made yummy cake and tea. We have learnt new songs and enjoyed stories both outside and inside.

NEXT WEEK...

Is Science Week!

We will be conducting our very own experiments and look forward to sharing them with you next week!
